I was just thinking

Re-establishing valuable
property lines requires

Serious Consideration

and

All property lines are
valuable as they are

a source of irritation
and worry which is laid
on the owner and even

tho a man may boast

that he don't care ^{or}

where the lines are
 he is not telling the
 full truth or doing
 himself justice here.

He is not doing justice
 to his physical system
 and medical science
 will bear me out in the
 assertion that worry over
 properly lines kills a
 man years and years
 before his time and
 discourages him in
 his other optimistic
 plans.

doubt as to the true
 liner of your home properly
 doesn't only discourage
 a man in all his other
 walks of life but it
 runs right down thro
 his ~~home~~ family
 and is such an
 excitation that it ruins
 the health of many good
 people.

Vallum could be
 written on this subject
 but the fact remains
 that it influences your
 whole life and your
 disposition including the
 disposition of your whole
 country

antāgarasi - hatred
for your neighbors who
is reflected to your
small children

Hatred of all your
surrounding neighbors
your children grow
up with hatred for the
adjoining neighbors

You are not doing
justice to your family
by letting them grow
up with that small
feeling of ----- ?
It sticks to them the
life and influences
their whole future
