Statement of Evidence:

- 1874 - P.F. Conger, U.S. Deputy Surveyor, subdivided the Township. He set a post to mark the corner and marked two bearing trees as accessories; a Black Pine 8 inch South 2 degrees East 11 links and a Black Pine 10 inch South 47 degrees West 7 links.
- 1967 - James Ekstrum, U.S. Forest Technician, searched for corners in this area. He found two forest service corner location tags nearby but no other evidence of the corner.
- 1981 - David D. Claypool Land Surveying, subdivided section 24 for the Bug School Site. A through search was made of the area but due to fires, tree planting and tree cutting no corner evidence remained. a Forest Service corner location tag, indicating an approximate corner, was found nearby. This corner was set by lost methods.
