DOCUMENT NO. 264930

Statement of Evidence:

- 1917 U.S. General Land Office dependent resurvey established this corner and an iron pipe with a marked brass cap was set to mark the corner. The following bearing trees were marked: 6" Aspen S 9 E 116 links and 6" Aspen N 80 W 148 links.
- 1970 Corner Certificate filed by William Okerman, RLS #6807, shows GLO brass cap monument found tipped over in roadway. Found rotted Aspen stump at S 9 E 116 links. Monument was straightened and reset. Two new bearing trees marked: 5" Elm S 16 W 116.0' and 7" Elm S 56 W 155.1'. A 4"x4"x7' Cedar post was set 18.3' south.
- 1977 Bruce Buxton, RLS #11309, surveyed plat of FIRST ADDITION TO HEATHMAN ESTATES, filed in April 1977. The plat shows this corner in place and marked with a GLO brass cap monument.
- 1981 U.S. Forest Service technician W. Olson found the corner monumented with a GLO brass cap monument down 0.5' in east-west road. The following bearing trees were found: The two Elms listed in the 1970 Corner Certificate, with small discrepancy in the distances. One bearing tree was marked and is shown on this certificate.
- 1982 On Sept. 9 I visited the corner and found items as per the 1981 USFS reports. I accepted monument as marking the same position as when set in 1917 based on the 1970 Corner Certificate and Buxton's traverse information.
