Statement of Evidence: U.S. General Land Office survey set wood post for this corner and 1875 marked the following bearing trees: 8" Cedar N 79 E 202 links and 4" Cedar S 88 E 215 links. U.S. General Land Office dependent resurvey reestablished this corner 1930 from one original bearing tree: 10" Cedar S 88 E 215 links. An iron pipe with a marked brass cap was set to mark the corner. The following bearing trees were marked: 12" Cedar S 59 W 17 links and 8" Cedar N 7 W 17 links. U.S. Forest Service records show the following: 1934 CCC record shows brass cap monument and the two 1930 bearing trees found. 1968 U.S. Forest Service records show the following: L. Martinson found the brass cap monument and the two 1930 bearing trees. U.S. Forest Service technician G. Brama found the corner monumented 1981 with a GLO brass cap monument in good condition up 6". The following bearing trees were found: 12" Cedar N 7 W 11.2' with blaze overgrown and 12" Cedar S 59 W 11.2' with scribe visible. One new bearing tree was marked and is shown on this certificate. Steel sign posts were set east and west of the corner. Also found original Cedar bearing tree, down and dead, at S 88 E 141.9' with flat blaze. COunty Surveyor's Records in the Recorder's Office were checked and 1982 no resurvey information was found on this corner.

On Sept. 8 I visited the corner and found items as per the 1981 USFS reports. I accepted the monument as marking the perpetuated position of the original corner based on bearing tree evidence and

the 1930 GLO resurvey.

1982
