

Statement of Evidence: East Quarter Corner of Section 6, Township 139 North,
Range 30 West, 5th Principal Meridian

The Original Public Land Survey was run in 1865 and a wood post was set to mark the corner.

In 1922 Mr. J. Flynn, County Surveyor, set the corner at a proportionate distance between the Northeast Corner and the Southeast Corner of Section 6 and made two new bearing tree ties.

No other records relating to the corner could be found.

In 1982 the Minnesota Department of Transportation searched the area but no evidence of the corner was found. We reset the corner at the proportionate distance between the Northeast Corner and the Southeast Corner of Section 6.

For details and survey analysis contact the Minnesota Department of Transportation District Surveys Office in Brainerd, Minnesota.
