This corner was originally established in April, 1876, by B.C. Baldwin, Deputy Surveyor. The field notes of that survey are filed in the office of the Secretary of State, St. Paul, Minnesota. Mr. Baldwin's notes state that a post was set to mark the corner and referenced by the following:

A 12" Lynn that bears N25°E a distance of 36 links [23.76 feet]
A 14" Birch that bears S31°E a distance of 26 links [17.16 feet]

On June 11, 1984, personnel from Advance Surveying & Engineering Co. made a thorough search for this corner and the above mentioned references but to no avail. This search area is on the Easterly edge of a Hay field.

On October 8, 1984, an additional search was made by Advance prior to reestablishing this corner at its "lost" position on line between adjacent section corners and the distance prorated and monumented as shown on the sketch.
