This corner was originally established in April, 1876, by B.C. Baldwin, Deputy Surveyor. The field notes of that survey are filed in the office of the Secretary of State, St. Paul, Minnesota. Mr. Baldwin's notes state that a post was set to mark the corner and referenced by the following:

A 4" Aspen that bears N5°W a distance of 4 links [2.64 feet]
A 6" Birch that bears S22°W a distance of 6 links [3.96 feet]

On July 20, 1984, personnel from Advance Surveying & Engineering Co. made a thorough search for this corner and the above mentioned references but to no avail. This search area is determined from our field traverse.

On September 27, 1984, an additional search was made by Advance prior to reestablishing this corner at its "lost" position half way and on line between adjacent Section corners.
