DOCUMENT NO. 281980

Statement of Evidence:

X1

This corner was originally established in July 1, 1873, by P.H. Congar, Deputy Surveyor. The field notes of that survey are filed in the office of the Secretary of State, St. Paul, Minnesota. Mr. Congar's notes state that a 10" Spruce marks the corner and referenced by the following:

A 8" White Pine that bears N82°W a distance of 19 links [12.54 feet]  
A 6" White Pine that bears S73°E a distance of 17 links [11.22 feet]

In March, 1912, John W. Curo notes state that he finds both of the Gov't bearing Trees plainly marked from which he set the corner and no new references. From County Survey Record Book "A", pages 516 to 518.

On January 31, 1914, John W. Curo's notes state, corner in place and flagged up. This corner is on the centerline of new State Road No. 6.

On August 14, 1984, personnel from Advance Surveying & Engineering Company, search for this corner position which we determine from our field traverse, but to no avail.

On August 22, 1984, personnel from Advance Surveying & Engineering Company set a monument as shown on the sketch at the lost position between adjacent Section corners.
