STATEMENT OF EVIDENCE:

The Center East-East One-sixtyfourth Corner of Section 8, Township 141 North, Range 29 West of the 5th Principal Meridian.

This corner position was not monumented in the original Township survey by P. H. Conger, Deputy Surveyor, under contract to the General Land Office in 1873. The notes for this survey are on file in the Office of the Secretary of State, St. Paul, Minnesota,

No intervening history has been recovered that records any monumentation or perpetuation of this corner position.

A search area for this corner position was determined using single proportionate methods based on coordinates determined from an EDMI/Theodolite traverse between the East Quarter and Centereast One-sixteenth Corners of said section 8. On July 1, 1986, Gary Brama and Curt Krause, USDA-Forest Service (USFS), searched this area for evidence of a corner position but nothing was found. This proportionate position was then monumented and referenced as shown on the front of this document.
