Statement of Evidence: North Quarter Corner Section 16, Township 133 North, Range 30 West, 5th Principal Meridian, Cass County, Minnesota.

The original public land survey was run in 1870 and a wood post was used to mark the corner. Bearing ties were made to a Norway pine and a spruce.

On June 29, 1999, with the help of long time Pillager resident John Lee, whose family has owned the surrounding land for generations, The Minnesota Department of Transportation searched the area and recovered a two inch iron pipe flush with the ground. According to Mr. Lee's testimony, his ancestors built a near-by fence in accordance with the original land survey. A very old barbed wire fence was found approximately two feet south of the pipe The Minnesota Department of Transportation accepts this position as the correct location for the corner.

For details and survey analysis, contact the Minnesota Department of Transportation District Surveys Office in Baxter, Minnesota.
