Title: Land Surveyor Professional Engineer County Surveyor County Engineer

Statement of Evidence:

East Quarter Corner Section 35, Township 139 North, Range 31 West

The Original Public Land Survey was run in 1865 and a wood post was set to mark the corner. Bearing tree ties were made to a Norway Pine and a Black Pine.

In 1986 Mr. Roger A. Mustonen, working in Section 36, shows no monument found, no monument set, and no computed position.

In November 2004 Kramer Leas DeLeo searched for the corner, but found nothing. The Northeast and Southeast Corners of Section 35 were positioned and the distance was found to be long. KLD verified distance to be longer than GLO running notes. KLD positioned all swamps along the east line of Section 35. The modern positions of these swamps matched closely to the running notes.

In December 2004 Kramer Leas DeLeo placed a 1/2" iron pipe monument capped RLS 42619 at a computed position. Position was derived from swamp calls in the running notes and indexing original chainage calls. Bearing tree ties were made to three Spruce Trees and a Poplar. Kramer Leas DeLeo accepts this position as the correct location for the corner.

For details and survey analysis contact Kramer Leas DeLeo in Baxter, Minnesota.
