I hereby certify that this document was filed in the County Recorders office at _____ o'clock ____ M. on the _____ day of _____, 20____.

County Recorder _____

Document Number _____

Statement of Evidence:

North Quarter Corner of Section 32, Township 135 North, Range 31 West,
Meadowbrook Township, 5th Principal Meridian, Cass County, Minnesota.

1870

The original government survey for the subdivision lines were ran by Richard Cronk and the original notes show a wood post set with the following bearing trees:

8" ASPEN	S 49° E	22 Links
7" ASPEN	N 63° W	10 Links

July 1900

Township road order shows no survey.

December 29, 1978

Alphonse P. Welle, PLS # 11873 notes the township records indicate that the area roads were in place in 1898.

No other records could be found and longtime area residents knew of no corners in place.

The MN Dept of Transportation searched for this corner at the occupation lines and at a lost location, nothing was found. The corner was set at its lost location, midway and on line between the northwest and northeast corners of the section. The fence occupation south does not agree with other fence occupations in the area.

For details and survey analysis contact the MN Dept of Transportation surveys office in Brainerd.

September 10, 2008

Timothy D. Larson, PLS # 43809, while surveying in Section 29 found a 2" square steel post set by the MN Dept of Transportation on December 29, 1978. The reference ties from the previous certificate of location prepared by Al Welle could not be found and the fence line shown on his certificate has been moved and corrected to fit today's section lines. Based on the description of the monument and distances measured to neighboring section corners, we were confident this was the same monument set in 1978. We accepted the location as previously certified and measured new reference ties.

A previously recorded Certificate of Location prepared by Alphonse Welle, recorded as Doc. No. 247567, was utilized as evidence.
