## Northeast Corner Section 21, Township 145 North, Range 27 West, 5th P.M.

The DNR Land Survey Unit contacted the following offices for survey information on this corner:

Bureau of Land Management (BLM) MN Secretary of State Cass County Recorder, Auditor, Surveyor, and Highway Engineer U.S. Forest Service Itasca County Surveyor

The U.S. General Land Office (GLO) survey notes and plat, on file in the MN Secretary of State's Office, describe this corner as a set post, from which:

6" Tam, N 50 ½ ° W, 40 links 4" Tam, N 17° E, 14 links 6" Tam, S 3 ½° W, 22 links 4" Tam, S 34° E, 10 links

- November, CCC Emile Juntinnen found a 2x2x36 stake and set a poster on a 2 1/2 "Tam, S 21° E, 0.13 chs
- March, the DNR Land Survey Unit conducted a search for the corner and found the Southeast CCC bearing tree described by Juntinnen; a 4 1/2" Tam and tag. Bearing tree was observed with GPS. As a result of finding this bearing tree, a distance-azimuth from the tree was used to reestablish the corner position. The computed position agrees very well with the record GLO swamp call North (i.e. +/-140' vs. GLO = 132') and West (i.e. +/- 200' vs. GLO = 198'). This computed position was found to measure:

5420.318 feet (GLO = 5275.38 ft) from the Northeast corner section 20. 5340.523 feet (GLO = 5280 ft) from the Northeast corner section 1 5331.108 feet (GLO = 5287.92 ft) from the Northeast corner section 22. 5486.946 feet (GLO = 5280 ft) from the Northeast corner section 28.

Analysis of the available information led me to accept the computed position as the corner. The found bearing tree was the best available evidence in reestablishing this corner. In addition, the computed position agrees with the record GLO swamp call.
