Statement of Evidence

East Quarter Corner of Section 22, Township 141 North, Range 25 West, 5th Principal Meridian.

March A GLO crew under W. Allen and E. Putnam set a post in a Tamarac swamp 2 chains south of the North edge

1871 of the swamp and referenced it as follows:

5" Tamarac S 2° E 14 links (9.2 feet)

5" Spruce N 47° W 19 links (12.5 feet)

April A Cass County crew conducted a thorough search for bearing trees and other evidence. The corner position was determined to be on line between the established section corners at a distance of 132 feet (2 chains) southerly of the well defined tamarac swamp edge. This location was supported by a band of tree growth in that area and is considered to be the best indicator of the North-South position. (Proj. 2021-022)

The recovered and established references for the position are shown on the face of this document.

Analysis of the recovered record data, field evidence and survey measurements, indicates that the monument set by CCHD/SO is the obliterated location of this corner.
