NOT TO SCALE

Surveyor's Note:

1. A breakdown of Section 3, T143N, R28W, performed by Roger Mustonen, LS11946, for Rusty Lego, which he shows an open circle indicating something was set for the South Quarter of Section 3. He notes on breakdown that "This was all done with chain & transit & hand calculated with sines & cosines. I believe the recovered 60d/spike located at an approximate midway position between the SW and SE Corner of Section 3, and in the middle of the old E-W road grade was to represent his South Quarter per his breakdown of Section 3. I replaced the recovered 60d/spike with a 3/4" I.P. w/ plastic cap LS45353 on top.
2. The purpose of this survey was to show how much of the northeasterly right of County Road 8 intersects with the southwest corner of the Northwest Quarter of the South Quarter of said Section 3.

THE BEARING ORIENTATION OF THIS SURVEY IS BASED ON CASS COUNTY NORTH ZONE NAD83 (96) DATUM.
