## North Quarter Corner Section 20, Township 145 North, Range 27 West, 5th P.M.

The DNR Land Survey Unit contacted the following offices for survey information on this corner:

Bureau of Land Management (BLM) MN Secretary of State Cass County Recorder, Auditor, Surveyor, and Highway Engineer U.S. Forest Service Itasca County Surveyor

- 1873 The U.S. General Land Office (GLO) survey notes and plat, on file in the MN Secretary of State's Office, describe this corner as a post on point of ridge in swamp, from which ties: 6" Jack Pine, South 85° East, 500 links
- 1929 E. Juntunen, CCC, Squared wood post, good condition, 2x2x24 and N. Pine 12", E 4° S, 2.64 chs, corner genuine? Yes. Place a metal poster on N. Pine 12", S side, corner bears N 82° 30' E, 2.64 chs.
- 1940 Layton, Schaitberger, Phelps, use corner, but don't show any ties.
- March, the DNR Land Survey Unit conducted a search for the corner but did not find any original evidence. As a result, this corner position was computed by Single Proportionate Measurement between the Northwest and Northeast corners of section 20. This computed position was found to measure:

2674.281 feet (GLO = 2640.66 ft) from adjoining corners.

Analysis of the available information led me to accept the computed position for the corner. Lack of government perpetuation bears out the need for the lost position.
